COMMENTS Both service personell were excellent.

Additionally, the gentleman who replaced my chimney chase was exceptional. His work was superior (also noted my other tradesmen work on my house at the time) and his attitude was awesome. Anyone needing chimney work that I know will be referred to you!

COMMENTS: My situation was rather urgent and I really appreciated the way Doug re-arranged his entire day on the spur of the moment, to help me. He even helped the plumber carry the water heater in and the old one out.
